(74) Agents: ANDERSSON, Per et al.; Albihns Patentbyrå Göteborg AB, P.O. Box 142, S-401 22 Göteborg (SE).

(54) Title: ABSORBENT ARTICLE WITH MAIN ABSORBING PART IN FRONT PORTION

WO 01/35888 A1

(57) Abstract: The invention relates to an absorbent product with a longitudinal direction and a transverse direction, two side edges (109, 110) extending essentially in the longitudinal direction, a front portion (114), a rear portion (115), a first surface and a second surface, and an absorption body (105) arranged between the first surface and the second surface. The absorbent product is essentially triangular in shape, the front portion (114) being wider than the rear portion (115). The absorption body (105) also has a main absorption part (106) which is shaped and positioned in such a manner in the plane of the product that at least 85 % of the total absorption capacity of the product is in the front three quarters of the length of the product and at least 70 % of the absorption capacity is found in the front half of the product.
